

# Thank you for Joining AIM Biotech's Workshop!

*How can you work with us?*

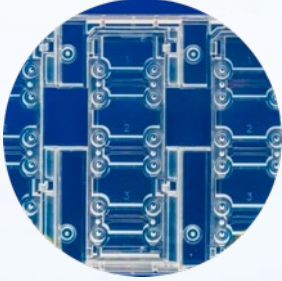

## **Cultureware: idenTx & organiX**

AIM provides 3D cell culture consumables to fit your needs

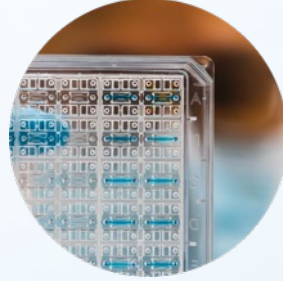

### **idenTx 3**

Simple,  
affordable,  
accessible

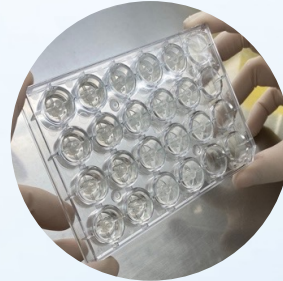

### **idenTx 9**

Flexibility &  
throughput

### **idenTx 40**

Higher  
throughput for  
screening

### **organiX**

Large tissue,  
organoids,  
biopsies

## **Contract Research Services**

AIM runs your assays in our state-of-the-art research lab

- Drug screening services
- Custom assay development
- Talk to AIM Biotech to discuss your research needs

## **Cell Systems:**

### **AngioPrime & VasQ Kit**

AIM provides reproducible & standardized vascular models in assay-ready & kit formats to streamline your drug development studies
